TD Wealth

About your Quarterly Portfolio Report

At TD Wealth Private Investment Advice, we make it a priority to provide you with performance reporting that is timely and reflects your financial goals. We are making investments to improve the consistency and transparency of our client reporting in our statements, online via WebBroker and from your advisor.

In 2017 we will launch an enhanced statement with new reporting on investment performance and a more detailed outline of the costs associated with your account. Your TD Unified Managed Account (TD UMA) will be included in the statement enhancements so you have a consolidated view of your portfolio's performance and clarity on how your investments are tracking toward your financial goals.

As a result we will issue the last TD UMA Quarterly Portfolio Report following this issue. Your new account statement will be available in 2017 online through WebBroker eServices or by regular mail, based on your current preferences for delivery and frequency. ■

We value your business. If you have any questions or require additional support, please contact your Investment Advisor.
